READY TO USE BLOCK BAIT. FOR THE CONTROL OF HOUSE MICE (*Mus domesticus*).**

DIRECTIONS FOR USE:

RESTRAINTS:

- DO NOT** place baits where night time temperature is expected to exceed 21°C.
- DO NOT** place baits at a distance greater than 2 m from buildings.
- DO NOT** exceed 3 m between bait stations for mice.
- DO NOT** place baits in open.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

SITUATION	PEST	RATE	CRITICAL COMMENTS
In and around Industrial, Commercial, Agricultural and Domestic situations, including sub-floors, roof voids and wall cavities.	House mice (<i>Mus domesticus</i>)	1 to 2 bait blocks per tamper resistant bait box.	Place baits only when night-time temperatures are expected to be below 21°C. Place edible items which cannot be moved in rodent-proof containers. Sweep up all edible waste. Protect baits from water where possible. BAITING STRATEGY- Eliminate as far as practicable, all alternative food sources. Bait infested area. Place loaded bait boxes under cover. Inspect baits daily. Replace eaten baits. If eaten quickly increase number of baits. Continue observation and replenishment until no more baits are taken. Baiting for at least 2 weeks is necessary to reduce mouse number.

AUTHORISED PERSON: This product must only be supplied to and used by Authorised Persons. Each State and Territory has specific criteria that must be addressed before a person is considered to be an authorised person. Persons wanting to be considered to be an authorised person for the use of this product must contact the appropriate State or Territory authority to address the criteria and ensure that the State or Territory Control of Use legislation is adhered to. This product is not registered for the control of protected native rodents or other native animals.

PRECAUTION: **DO NOT** allow bait to contaminate foodstuffs or food intended for human or animal consumption. **DO NOT** apply bait to crops.

240 g NET

CONTAINS 48 X 5 g BAIT BLOCKS

CLA312

Place baits in locations or bait stations which are inaccessible to other animals and birds. This product is hazardous to pigs, cats, dogs, native wildlife and poultry.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate streams, rivers, or waterways with the chemical or used containers. Place baits in locations inaccessible to animals other than target animals. **DO NOT** place baits near drains, waterways and sewage.

STORAGE AND DISPOSAL: Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight. Break, crush, puncture and bury empty containers and dispose of unused baits and animal carcasses in a local authority landfill. If not available bury the containers, unused baits and animal carcasses below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt. **DO NOT** use containers which have held bait for any other purpose.

SAFETY DIRECTIONS: Very dangerous. Poisonous if swallowed. When preparing product for use wear elbow-length PVC gloves. If on skin and after each baiting, wash thoroughly with soap and water. After each day's use, wash gloves and contaminated clothing.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26; New Zealand 0800 764 766. Avoid giving alcohol.

SDS: Additional information is listed in the Safety Data Sheet available from the supplier.

MANUFACTURER'S WARRANTY AND EXCLUSION OF LIABILITY: This product as supplied is of a high grade and believed to be suitable for any purpose for which it is expressly recommended and must be used in accordance with the Directions for Use given on the label. No responsibility is accepted in respect of the product save those non-excludable conditions implied by any Federal and State legislation or law of a Territory.
