

FASTRAC[®]

BLOX™ Rodenticide

NON-ANTICOAGULANT BLOX RODENTICIDE with Bromethalin

OUR FASTEST ACTING BAIT FOR TOUGH RODENT PROBLEMS

- Fastrac rodenticide Blox are an ideal option for livestock producers, especially pig and poultry facilities where rodent populations are high and biosecurity is critical.
- Fastrac is excellent for knockdown of severe infestations because its' acute active ingredient kills rats and mice faster than anticoagulant baits.
- Advanced formulation for improved bait acceptance and a higher melting point.
- Each 4Kg bucket of Fastrac kills up to 408 rats and 1,632 mice.
- Fastrac's unique mode of action makes it ideal to be used on it's own or as a part of any bait rotation program.
- Fastrac should be used at least once per year to reduce any potential resistance or bait shyness issues.

Fastrac Blox save time and money. Rodents eat a lethal dose in a single night, reducing the amount of bait required. Fastrac Blox are registered for use in and around farm buildings.

Mould and moisture resistant. Rodents love to gnaw on the multiple edges. A hole through the block means that they can be secured in a bait station.

FASTRAC is a premium bait for the toughest infestations. Fastrac has been formulated to deliver rapid control, improved bait acceptance, a higher melt point and enhanced preservative
