Rudduck provides pest control solutions to farmers and rural customers, through our network of rural resellers. With our 100-year heritage and expertise in pest control, we provide our customers with the knowledge, support and confidence to solve their pest control problems.

Who is Rudduck?

- Australian pest control product supplier specialising in the rural market
- Partner to local and overseas pest control product manufacturers
- Current range includes pyrethrum & unique rodent control products
- Expansion plans to bring the latest pest control products to Australia
- Trusted pest control expert

Rudduck's current product range includes a range of professional pyrethrum-based products, specialist rodent products and fogging equipment. With active growth plans underway, the product range is expected to expand significantly into the future. Rudduck produce a range of pyrethrum-based products, the majority of which are manufactured in-house, including Rudduck Py Matic and Rudduck Py Zap (pyrethrum concentrate).
